Subject index

Acetonitrile
A study of the adsorption of acetonitrile on a gold electrode from aqueous solutions using in situ vibrational spectroscopy (Faguy et al.) 339
Adsorption
Adsorption and electrochemistry of SCN^-: comparative studies at Ag(111) and Pt(111) electrodes by means of AES, CV, HREELS and LEED (Cao et al.) 311
A study of the adsorption of acetonitrile on a gold electrode from aqueous solutions using in situ vibrational spectroscopy (Faguy et al.) 339
Alkaline solutions
Electrocatalysis of oxygen reduction at Fe_3O_4 oxide electrodes in alkaline solutions (Vago, Calvo) 41
Aluminum oxide layers
Spectroscopic ellipsometry and XPS studies of anodic aluminum oxide formation in sulfuric acid (Schnyder, Kötz) 167
Aniline
The application of fast scan cyclic voltammetry. Mechanistic study of the initial stage of electropolymerization of aniline in aqueous solutions (Yang, Bard) 423
Anion adsorption
Anion absorption on the (111) face of silver (Jović et al.) 327
Anion-specific effect
The anion-specific effect in the overoxidation of polyaniline and polyindoline (Lippe, Holze) 411
Aqueous solutions
A study of the adsorption of acetonitrile on a gold electrode from aqueous solutions using in situ vibrational spectroscopy (Faguy et al.) 339
Ascorbic acid
Structural effects in electrocatalysis: electrooxidation of L-ascorbic acid on single-crystal gold surfaces (Xing et al.) 211
Atmospheric oxygen reduction
Intermediate products of atmospheric oxygen reduction and the integrity of metal–organic coating interface (Wroblowa) 31

Brass
Kinetics of deposition and dissolution of brass from the pyrophosphate–oxalate bath (Despić et al.) 473

Catalysts
Study of the heterogeneous decomposition of hydrogen peroxide: its application to the development of catalysts for carbon-based oxygen cathodes (Falcón, Carbonio) 69
Chloride ion adsorption
Influence of chloride ion adsorption on hydrogen evolution reaction on iron (Vračar, Dražić) 269
Cobalt oxide
Hydrogen evolution on oxide electrodes: Co_3O_4 in alkaline solution (Veggetti et al.) 255
CO oxidation
Potential dependence of CO oxidation by H_2O on a Pt anode. A molecular orbital theory (Shiller, Anderson) 201
Copper
The effect of halides on the structure of copper underpotential-deposited onto Pt(111): a low-energy electron diffraction and X-ray photoelectron spectroscopy study (Michaelis et al.) 299

Dichloroacetic acid reduction
The electrocatalysis of dichloroacetic acid reduction at lead-modified carbon electrodes (Holze, Fette) 247

Electrocatalysis
Structural effects in electrocatalysis: electro-oxidation of L-ascorbic acid on single-crystal gold surfaces (Xing et al.) 211
The electrocatalysis of dichloroacetic acid reduction at lead-modified carbon electrodes (Holze, Fette) 247
Electro-oxidation
Structural effects in electrocatalysis: electro-oxidation of L-ascorbic acid on single-crystal gold surfaces (Xing et al.) 211
Electropolymerization
The application of fast scan cyclic voltammetry. Mechanistic study of the initial stage of electropolymerization of aniline in aqueous solutions (Yang, Bard) 423
Ellipsometry
Ionic adsorption at the solid–solution interphase using three in situ methods (Bockris et al.) 355
Ethylene carbonate
The behaviour of lithium electrodes in propylene and ethylene carbonate: the major factors that influence Li cycling efficiency (Aurbach et al.) 451

Fast scan cyclic voltammetry
The application of fast scan cyclic voltammetry. Mechanistic study of the initial stage of electropolymerization of aniline in aqueous solutions (Yang, Bard) 423
Fourier transform spectroscopy
Ionic adsorption at the solid–solution interphase using three in situ methods (Bockris et al.) 355

D-Glucose
Oxidation of D-glucose on single-crystal platinum electrodes: a mechanistic study (Popović et al.) 227
Gold
Gas-phase electroreduction of O_2 on gold–Nafion and (underpotential deposition, gold)–Nafion® electrodes (Amadelli et al.) 85
Gold electrode
A study of the adsorption of acetonitrile on a gold electrode from aqueous solutions using in situ vibrational spectroscopy (Faguy et al.) 339

Halides
The effect of halides on the structure of copper underpotential-deposited onto Pt(111): a low-energy electron diffraction and X-ray photoelectron spectroscopy study (Michaelis et al.) 299
Heterogeneous decomposition
Study of the heterogeneous decomposition of hydrogen peroxide: its application to the development of catalysts for carbon-based oxygen cathodes (Falcón, Carbonio) 69
Hydrogen evolution
Hydrogen evolution on oxide electrodes: Co_3O_4 in alkaline solution (Veggetti et al.) 255
Influence of chloride ion adsorption on hydrogen evolution reaction on iron (Vračar, Dražić) 269
Hydrogen peroxide
Study of the heterogeneous decomposition of hydrogen peroxide: its application to the development of catalysts for carbon-based oxygen cathodes (Falcón, Carbonio) 69

Ionic adsorption
Ionic adsorption at the solid–solution interphase using three in situ methods (Bockris et al.) 355
Iron
Influence of chloride ion adsorption on hydrogen evolution reaction on iron (Vračar, Dražić) 269
Iron phthalocyanine modified polymer electrodes
Electrocatalytic reduction of oxygen at iron phthalocyanine modified polymer electrodes (Hourch et al.) 1

Lead ions
The electrocatalysis of dichloroacetic acid reduction at lead-modified carbon electrodes (Holze, Fette) 247
Lithium cycling efficiency
The behaviour of lithium electrodes in propylene and ethylene carbonate: the major

factors that influence Li cycling efficiency (Aurbach et al.) 451

Metal interface
Intermediate products of atmospheric oxygen reduction and the integrity of metal–organic coating interface (Wroblowa) 31
Metal phthalocyanines
Electrocatalytic activity of metal phthalocyanines for oxygen reduction (Zagal et al.) 13
Modified carbon electrodes
The electrocatalysis of dichloroacetic acid reduction at lead-modified carbon electrodes (Holze, Fette) 247

Nafion
Gas-phase electroreduction of O_2 on gold–Nafion and (underpotential deposition, gold)–Nafion® electrodes (Amadelli et al.) 85
Electrode kinetics of oxygen reduction at carbon-supported and unsupported platinum microcrystallite/Nafion® interfaces (Parthasarathy et al.) 101
Nuclear magnetic resonance
Electrode potential dependent NMR spectra of surface ^{13}CO on polycrystalline platinum (Slezak, Wieckowski) 401

Organic coating
Intermediate products of atmospheric oxygen reduction and the integrity of metal–organic coating interface (Wroblowa) 31
Overoxidation
The anion-specific effect in the overoxidation of polyaniline and polyindoline (Lippe, Holze) 411
Oxide coatings
The roles of the ruthenium concentration profile, the stabilizing component and the substrate on the stability of oxide coatings (Jovanović et al.) 147
Oxide electrodes
Electrocatalysis of oxygen reduction at Fe_3O_4 oxide electrodes in alkaline solutions (Vago, Calvo) 41
Hydrogen evolution on oxide electrodes: Co_3O_4 in alkaline solution (Veggetti et al.) 255
Oxide film
Surface orientation dependence of oxide film growth at platinum single crystals (Conway, Jerkiewicz) 123

Oxygen
Electrocatalytic reduction of oxygen at iron phthalocyanine modified polymer electrodes (Hourch et al.) 1
Gas-phase electroreduction of O_2 on gold–Nafion and (underpotential deposition, gold)–Nafion® electrodes (Amadelli et al.) 85
Electrode kinetics of oxygen reduction at carbon-supported and unsupported platinum microcrystallite/Nafion® interfaces (Parthasarathy et al.) 101
Oxygen reduction
Electrocatalytic activity of metal phthalocyanines for oxygen reduction (Zagal et al.) 13
Electrocatalysis of oxygen reduction at Fe_3O_4 oxide electrodes in alkaline solutions (Vago, Calvo) 41

Platinum
Electrode kinetics of oxygen reduction at carbon-supported and unsupported platinum microcrystallite/Nafion® interfaces (Parthasarathy et al.) 101
Surface orientation dependence of oxide film growth at platinum single crystals (Conway, Jerkiewicz) 123
The voltammetric behaviour of H and O adatoms in the 189–292 K range on platinum in $HClO_4 \cdot 5.5\ H_2O$ and $H_2SO_4 \cdot 12H_2O$ (Florit, Arvia) 281
Platinum(111)
The effect of halides on the structure of copper underpotential-deposited onto Pt(111): a low-energy electron diffraction and X-ray photoelectron spectroscopy study (Michaelis et al.) 299
Adsorption and electrochemistry of SCN^-: comparative studies at Ag(111) and Pt(111) electrodes by means of AES, CV, HREELS and LEED (Cao et al.) 311
Platinum electrode
Oxidation of D-glucose on single-crystal platinum electrodes: a mechanistic study (Popović et al.) 227
Platinum electrodes
Potential dependence of CO oxidation by H_2O on a Pt anode. A molecular orbital theory (Shiller, Anderson) 201
Polyaniline
The anion-specific effect in the overoxidation of polyaniline and polyindoline (Lippe, Holze) 411

Polycrystalline platinum
Electrode potential dependent NMR spectra of surface ^{13}CO on polycrystalline platinum (Slezak, Wieckowski) 401
Polyindoline
The anion-specific effect in the overoxidation of polyaniline and polyindoline (Lippe, Holze) 411
Propylene carbonate
The behaviour of lithium electrodes in propylene and ethylene carbonate: the major factors that influence Li cycling efficiency (Aurbach et al.) 451
Pyrolytic graphite
Second harmonic generation at highly ordered pyrolytic graphite—bare, surfactant modified, and iron phthalocyanine modified electrodes (Bae, Choi) 187
Pyrophosphate–oxalate bath
Kinetics of deposition and dissolution of brass from the pyrophosphate–oxalate bath (Despić et al.) 473

Radiotracing
Ionic adsorption at the solid–solution interphase using three in situ methods (Bockris et al.) 355
Ruthenium concentration
The roles of the ruthenium concentration profile, the stabilizing component and the substrate on the stability of oxide coatings (Jovanović et al.) 147

SCN^- ion
Adsorption and electrochemistry of SCN^-: comparative studies at Ag(111) and Pt(111) electrodes by means of AES, CV, HREELS and LEED (Cao et al.) 311
Second harmonic generation
Second harmonic generation at highly ordered pyrolytic graphite—bare, surfactant modified, and iron phthalocyanine modified electrodes (Bae, Choi) 187
Silver
Adsorption and electrochemistry of SCN^-: comparative studies at Ag(111) and Pt(111) electrodes by means of AES, CV, HREELS and LEED (Cao et al.) 311
Silver (111)
Anion absorption on the (111) face of silver (Jović et al.) 327
Single-crystal gold
Structural effects in electrocatalysis: electrooxidation of L-ascorbic acid on single-crystal gold surfaces (Xing et al.) 211
Solid/liquid interface
Electrode potential dependent NMR spectra of surface ^{13}CO on polycrystalline platinum (Slezak, Wieckowski) 401
Spectroscopic ellipsometry
Spectroscopic ellipsometry and XPS studies of anodic aluminum oxide formation in sulfuric acid (Schnyder, Kötz) 167
Substrate
The roles of the ruthenium concentration profile, the stabilizing component and the substrate on the stability of oxide coatings (Jovanović et al.) 147

Underpotential deposition
The effect of halides on the structure of copper underpotential-deposited onto Pt(111): a low-energy electron diffraction and X-ray photoelectron spectroscopy study (Michaelis et al.) 299

Voltammetry
The voltammetric behaviour of H and O adatoms in the 189–292 K range on platinum in $HClO_4 \cdot 5.5\ H_2O$ and $H_2SO_4 \cdot 12H_2O$ (Florit, Arvia) 281

X-ray photoelectron spectroscopy
Spectroscopic ellipsometry and XPS studies of anodic aluminum oxide formation in sulfuric acid (Schnyder, Kötz) 167
